FRIDAY, OCTOBER 28.

FOR DELEGATE TO THE 56TH CONGRESS  
**PEDRO PEREA,**  
OF BERNALILLO.

## Republican Ticket.

**SANTA FE COUNTY.**  
T. B. CATRON,  
For member of the council of the 33d legislative assembly.  
WILLIAM KILPATRICK,  
VICTOR ORTEGA,  
For members of the house of representatives.  
C. W. DUDROW,  
For county commissioner 1st district.  
J. T. McLAUGHLIN,  
For county commissioner 2d district.  
AUGUSTIN MESTAS,  
For county commissioner 3d district.  
TELESFORO RIVERA,  
For probate judge.  
ATANASIO ROMERO,  
For clerk of the probate court.  
JOHN W. CONWAY,  
For sheriff.  
M. A. ORTIZ,  
For assessor.  
FRITZ MULLER,  
For treasurer and ex-officio collector.  
PACINDO F. PINO,  
For superintendent of schools.  
D. M. WHITE,  
For surveyor.

Atanasio Romero is the best and most attentive county clerk this county has ever had. The voters of this county can do no better than by electing him on the 8th of November next by a large majority.

In the future American women will stand up for the Chinese. Wu Ting Fang, the Chinese minister at Washington, in paying a tribute to the ladies of this country, said: "The American women, they are so grand and rosey."

There are some good things for some people going on just now. Democratic and Union party money is being spent with some of the honest voters, in many directions. It is an ill wind that blows no one any good.

Now that the people know that Hon. Harvey B. Ferguson is a protectionist, although running on the free trade Chicago platform and that he is the man who had the Dingley tariff law passed, they will know how to proceed.

Victor Ortega has served this county as county commissioner from 1895 to 1896. He was a careful and honest commissioner and will prove a careful and honest legislator. The voters of Santa Fe county will do well to vote for him on election day.

Messrs. C. W. Dudrow and J. T. McLaughlin have been very successful as county commissioners in administering the affairs of the county in an able, economical and business like manner. All good citizens should vote for them on election day and they should be elected by a very handsome majority.

prisonment of from three to ten months each.

The nomination of Captain Fritz Muller for treasurer and ex-officio collector of this county was one of the very best indeed that could have possibly been made by the Republican county convention yesterday. He has made a first class record as collector during the past year and a half; he has been found a trustworthy and competent official. He will be re-elected by a very handsome majority.

The question is, if Spain should break off peace negotiations with the United States, what good would it do her? The assumption of hostilities is an impossibility for that country, unless aid should be given by some of the other European powers, and at the present time there is no hope for that. The other countries across the water have all the trouble of their own they care to look after.

So far, Hon. H. B. Ferguson has not been invited to make protection speeches in the east, although the Democratic campaign managers and papers in New Mexico claim for that gentleman, that he is a strong and consistent protectionist, that his influence passed the wool schedule in the Dingley tariff law and that his pleading with the president resulted in the latter's approval of the Dingley tariff bill, which made the measure law. This is passing strange, especially when it is taken into consideration that Mr. Ferguson is a staunch and uncompromising supporter of the Chicago Democratic platform of 1896.

## New Mexico Produces "Raw Materials."

In the past few years there has been a disposition on the part of writers on economic questions to make sneering allusions to what they term a desire on the part of the laboring people to secure better wages and more work through the agency of legislation, rather than to exert themselves to active competition with their fellow men.

Just what these wisecracks mean by the term "laboring people" is a little difficult to understand for the reason that all classes of people in the United States have considerable faith in the power of legislative bodies to accomplish by wisely framed laws that which could not be gained in any other way. But that matter is of little importance in comparison to the main question, that of the benefits of legislation, when properly applied to commercial transactions.

In the first place, no one is so foolish as to believe that wealth can be made more general by the simple process of enacting a law declaring that there shall be more wealth, neither do those men who are looking for employment believe that more work can be created in the same way, but experience has shown that competition from foreign countries can be so regulated as to interfere less with the employment of American workmen, by judicious legislation by congress; also, that the prices of ores, cattle, sheep, wool, farm products and other articles which the people have for sale can be made to command higher prices by preventing foreign products from flooding the home markets, thus lessening the demand and naturally reducing prices in order to meet an unnatural and excessive competition.

The shibboleth of "free raw materials" heard so much from one of the political parties in every campaign is one of the most deceptive and false terms ever coined. There is no such article as raw material. The ore taken from a mine and delivered on the dump is the miner's finished product; the wool stripped from a sheep's back and delivered at the wool buyer's warehouse is the wool grower's finished product, and so it is all through the long list of articles denominated raw materials by the manufacturer, who takes them and converts them into some other form. That change does not make the first state a raw one. Some man produced them and they were his finished products when they left his hands.

To say that aid in protecting home producers and laborers from undue competition on the part of foreign producers and laborers cannot be given by protective laws is foolishness, to say that "raw materials" should not be protected by law, or that the laboring people depend too much upon that manner of legislation, is the quintessence of falsehood. Almost everything produced in New Mexico comes under the head of "raw materials," and if the free traders had the power, there would not be a cent of tariff placed on wool, cattle, sheep, grain, fruits, ores or anything else raised in the territory.

The people of New Mexico owe to the Republican party every iota of prosperity they enjoy today. The high prices commanded by sheep and cattle and farm products are the result of legislation placed upon the statutes of the United States by the Republican party, not by the Democratic party or through the efforts of Democratic delegates to congress from the territories. The political history and public records of the United States stand as unimpeachable witnesses to the truth of the statements here made.

In the light of these facts, why should one vote be cast in New Mexico in November for the party which declares that wool, sheep, cattle, ores and everything else produced in the territory are "raw materials," and for that reason should not be protected from competition with similar articles raised in foreign countries under conditions which render it impossible to market them on an equal footing with foreign products? In order to maintain the needed protection at the highest possible point Republicans are required at the nation's capital in sufficient numbers to overshadow the strength of the "free raw material" fanatics, whose one desire is to place the American ranchmen, sheep raiser, farmer and laboring man on the same poverty-stricken, helpless condition that these classes occupy on the other side of the water.

As the standard bearer of the party which stands for the protection of Americans in all walks of life, the betterment of the lot of the poor and the advancement of the nation, Hon. Pedro Perea is entitled to every vote in New Mexico; and it is safe to say that he will receive a large majority of them.

**HON. MALAQUIAS MARTINEZ,**  
Republican Candidate for the Council from Taos, Rio Arriba and San Juan Counties.

Hon. Malaquias Martinez, Republican candidate for the council from the counties of Taos, Rio Arriba and San Juan, was born in the town of Taos on December 5, 1859, and received his education in the territory, attending several first class private schools, the Christian Brothers' college in Taos and the Brothers' college in Mora county.

After leaving school he was in the employ of the government at Fort Union for some time as a clerk and contractor, and for a time was engaged in the cattle business, and at the present time is engaged in farming and stock raising. In all his business enterprises he has been very successful and has demonstrated his ability by the management of his private affairs.

The first political office held by Mr. Martinez was that of superintendent of county schools in Taos county, to which he was elected by the Republicans in 1893. That office he held for two years to the satisfaction of the people and to his own good credit. He was untiring in his efforts to establish public schools in those districts lacking them, and looked after the interests of those already in operation, closely. In fact, he was a superintendent in every sense of the word. In the campaign of 1894 he was elected to the 31st legislative assembly.

Hon. T. B. Catron, who was on yesterday nominated by the Republicans of Santa Fe as their candidate for the council in the 33d legislative assembly, needs no introduction to the voters of the county. For many years he has resided among them, has been intrusted with their business affairs as an attorney, and has represented them in the legislature before. His qualifications as a business man and as a legislator are acknowledged even by his bitterest political enemy, and there is no questioning the manner in which he will acquit himself as a member of the council. His past record speaks for that in tones much louder than would be required to shout it from the house tops. In nominating Mr. Catron the delegates to the convention made no mistake. Brainy, brilliant and fitted for the position as few other men are, he will be a power in the next session, and one that will be of benefit to the whole territory. There is no question who will be the next councilman from Santa Fe county. His name will be found on the Republican ticket on election day spelled T. B. C-A-T-R-O-N.

William Kilpatrick, the Republican nominee for the house of representatives from the southern part of the county, is an honest, intelligent and hard working miner. He bears an enviable reputation among his fellow workmen and is possessed of the necessary qualifications to fill the office for which he has been nominated, with satisfaction to the citizens of this county and credit to himself.

**What a Vote for Perea Means.**  
(Albuquerque Citizen.)  
A vote for Hon. Pedro Perea means a vote for stanchness, a vote for a man in sympathy with the present administration, a vote for a delegate to congress who can do something for the territory he represents.

**Vote for Pedro Perea.**  
(Raton Range)  
Pedro Perea is a Republican, and if elected delegate to congress will be in political touch with both houses of congress and the executive. Consequently he can accomplish far more for our territory than would be possible for any Democrat to do. Vote for him.

**TERRITORIAL TOPICS**

**Albuquerque Notes.**  
In the district court yesterday morning, before Judge Crumpacker, Al. Freeman pleaded guilty to the charge of forgery, and was sentenced to pay a fine of \$50 and costs.

John Brady and James D. Eakins, formerly in business under the firm name of Eakins & Brady, have petitioned the court to adjudicate them bankrupts, and decree a certificate discharging them from their obligations.

In a political scrimmage between Captain Hubb Leeds and Jacob Korber, which took place yesterday afternoon, Leeds was either knocked or thrown down and received a broken ankle.

The wife and children of Bishop Serkis, of Manila, have removed from Washington, D. C., to Albuquerque, where they will remain during the winter while the bishop is in the north on a missionary tour.

W. P. Metcalf, a prominent citizen of Albuquerque, is reported as dangerously ill.

## REPUBLICAN PLATFORM.

The Republican party of the territory of New Mexico, in convention assembled at Albuquerque, on the 1st day of October, A. D. 1896, reaffirms its faith in the declaration of principles set forth in the national Republican platform of 1896; and it is with pride that we can again point to the fact that under a Republican administration public credit has been restored, industry revived, factories and workshops reopened and protection given to American interests, under which the people are enjoying renewed confidence and prosperity.

We most heartily endorse the Dingley tariff law, enacted by a Republican congress, despite the persistent opposition of the Democratic party. Under that law the sheep and wool and live stock interests have been greatly benefited, and the wealth of this territory benefited by many millions of dollars.

We believe in sound money, and in a volume of money sufficient for all business demands. The policy of the present administration in giving employment to labor, and protection to our various industries is a solution of the financial question. We are opposed to all financial heresies which call for cheap money, believing as we do that all money issued by the government should be of uniform and equal value.

We congratulate the country upon the great success of the present national administration, in which our president has distinguished himself as a statesman and a patriot in dealing with domestic and foreign affairs; and in which he has shown so much wisdom in upholding the honor of this nation.

We heartily approve the wisdom of the annexing of the Hawaiian islands, and we favor the retention by this government of all territory acquired by our army and navy where justice and humanity demand it. We favor the construction of the Nicaragua canal under the immediate supervision and exclusive control of the United States government, the necessity for the canal having been more strongly emphasized by recent events.

We congratulate Governor Otero upon the success of his administration and commend him for his efforts in behalf of good government and the advancement of the material and financial interests of New Mexico both at home and abroad, and we tender to the president of the United States our thanks for the appointment of a governor from the ranks of the army, a man who by reason of his lifetime residence in New Mexico, and of his intimate acquaintance with the needs of our people is best able to perform the duties of an executive in this territory.

We heartily endorse the present Republican administration in all of its branches. During the brief period in which the Republican party have occupied the position he fills, New Mexico has attained a place in the hearts of the American people never before accorded it. The patriotism of citizens in sending forth a larger proportion of soldiers to the Spanish-American war than is credited to any other state or territory, and the bravery of our soldiers displayed on the battle fields, are a guarantee of our right to full citizenship in the American union. We point with pride to the immortal record made by the New Mexico squadron of "Tough Riders" in the battles of La Guasima and San Juan, by which was established the intelligence, patriotism and indomitable courage of our people, and when they have won for themselves the admiration of the civilized world, and tender to the relatives and friends of those who fell in the struggle for humanity, justice and the rights of the weak, the sympathies of a grateful people. We congratulate the nation on the return of peace, and heartily endorse President McKinley in the careful, patriotic and successful manner in which the dignity of this nation has been preserved in the war with Spain.

We congratulate the people of New Mexico upon the appointment by the president of the present able and fearless judiciary, and commend the members thereof for their devotion to duty and their high interest in the administration of justice.

The present congress of the United States is Republican in politics, and any acts of that body favorable to New Mexico are Republican measures and cannot be credited to the efforts of a Democratic delegate from this territory.

The attitude of the Republican party of New Mexico has always been consistent on the question of the admission of the territory as a state. We favored the admission of the territory when the Democratic party was in power and in opposition to it, and we still favor its admission, believing that there is no good and substantial reason for keeping us out of the Union as a state and believing that the best way to accomplish the election of a delegate to congress who is in harmony with Republican politics and principles.

Our heartfelt gratitude is extended to the army and navy for their noble sacrifices in behalf of their country, and their brilliant achievements on land and water; and we emphasize our appreciation of those brave soldiers known as the "Rough Riders," to whose ranks our territory has so liberally contributed, and whose acts of bravery and heroism have inspired the world with new faith and confidence in American courage and valor.

We are in favor of increasing both our army and navy to a size commensurate with the resources of the country, thereby placing the nation in a position that will insure it a faithful influence and power among the nations of the earth. We believe in the expansion of American industry and commerce, and in the full protection of American citizens everywhere; wherever the American flag has been hoisted in the name of humanity and freedom, we believe it should stay until every vestige of despotism has been removed.

**ALAMOGORDO**  
NEW MEXICO.  
THE CITY OF MOUNTAIN AND PLAIN.  
ANY KIND OF CLIMATE YOU WANT!
